

CAMEL MILK POWDER - 200g

Availability: Pre-Order
Weight: 200.00g

Price: \$55.00

Description

Our Powder is made from 100% Camel Milk

This FREEZE DRIED powder undergoes a very different process to that of Hot Spray Drying.

Small amounts of pasteurised camel milk is frozen on trays and placed under vacuum. Due to the vacuum the ice will evaporate immediately, without turning back to water, and this guarantees that the majority of the taste, texture and nutrients will stay intact.

Powered milk has the added benefit of an extended shelf life, compared to fresh milk.

Freeze dried. 200g (2 litres). Resealable stand up pouch.

Direction:

*For best results use chilled filtered water.

Per litre: 100g Powder to 900ml Water

Per serve: 25g Powder to 225ml Water
